DETAILED ACTION

Response to Amendment

The Amendment, filed on May 30, 2006 has been entered and is acknowledged by the Examiner.

Amendments to specification and abstract have been entered and approved by the Examiner.

Claims 1, 3-8, 11 and 23 are pending in the instant application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in an electronic (e-mail) communication with Ms. Belinda Lee on July 31, 2006.

The application has been amended as follows:

In the claims

Claim 1 lines 11-13, 'a carrier substrate disposed beneath the dielectric substrate to carry the gas discharge chamber, wherein a plurality of adhesive layers is disposed along the outer surface of the outer wall of the dielectric substrate to connect with the carrier substrate' has been replaced with the following text:

Art Unit: 2879

-- a carrier substrate disposed beneath the dielectric substrate to carry the gas discharge chamber, wherein a plurality of adhesive layers is disposed between the electrodes along the outer surface of the outer wall of the dielectric substrate to connect with the carrier substrate--.

Allowable Subject Matter

Claims 1,3-8,11 and 23 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the flat lamp structure having the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of a carrier substrate disposed beneath the dielectric substrate to carry the gas discharge chamber, wherein a plurality of adhesive layers is disposed between the electrodes along the outer surface of the outer wall of the dielectric substrate to connect with the carrier substrate.

Regarding claims 3-8,11 and 23, claims 3-8, 11 and 23 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patent 5,565,733 to Krafcik et al. discloses a lamp fixed with a carrier substrate by adhesive film.
